this second edition of the international handbook of mathematics teacher education builds on and extends the topics ideas in the first edition while maintaining the themes for each of the volumes collectively the authors looked back beyond and within the last 10 years to establish the state of the art and continuing and new trends in mathematics teacher and mathematics teacher educator education and looked forward regarding possible avenues for teachers teacher educators researchers and policy makers to consider to enhance and or further investigate mathematics teacher and teacher educator learning and practice in particular the volume editors provide introductions to each volume that highlight the subthemes used to group related chapters which offer

meaningful lenses to see important connections within and across chapters readers can also use these subthemes to make connections across the four volumes which although presented separately include topics that have relevance across them since they are all situated in the common focus regarding mathematics teachers volume 4 the mathematics teacher educator as a developing professional focuses on the professionalization of mathematics teacher educators which since the first handbook continues to grow as an important area for investigation and development it addresses teacher educators knowledge learning and practice with teachers instructors of mathematics thus as the fourth volume in the series it appropriately attends to those who hold central roles in mathematics teacher education to provide an excellent culmination to the handbook
