financial leverage ratio is a long term solvency measure that indicates the extent to which a company's operations are funded by debt. It is calculated as total debt divided by total capitalization.

It is a measure of a company's ability to meet its long-term debt obligations. A high leverage ratio indicates that a company is heavily indebted, which may increase its risk of default. A low leverage ratio indicates that a company is less indebted, which may indicate a lower risk of default.

Financial engineering is a field that combines financial theory and mathematical models to solve complex financial problems. It is often used in the development of new financial products and in the optimization of investment strategies.

The Society for Financial Econometrics is a professional organization for economists and financial econometricians. It is dedicated to the advancement of research and the promotion of the highest standards of professional conduct in the field of financial econometrics.
